7 ways governments are adapting

1. Center of Government Approach

By **Martin Alessandro**, Queen Mary University of London & **Ray Shostak**, Director of General Performance and Head of UK Prime Minister Delivery Unit

2. Systems thinking

EVENT

Systems Thinking: What Is It and How Do I Apply It?

EXCLUSIVELY FOR PUBLIC SERVANTS

Upskilling: Priorities

ANSWER CHOICES	RESPONSES	RESPONSE PERCENTAGE
Digital transformation in government	293	17.54 %
Artificial intelligence	243	14.55 %
Government innovation	190	11.38 %
Equity, justice and inclusion	158	9.46 %
Climate change	118	7.07 %
Other, please specify	109	6.53 %
Social services and welfare	90	5.39 %
Health and social care	85	5.09 %
Economic development and growth	82	4.91 %
International relations	63	3.77 %
Education	63	3.77 %
Public safety	56	3.35 %
Democracy and civic affairs	38	2.28 %
Peace and security	36	2.16 %
Urban development	28	1.68 %
Transport and infrastructure	18	1.08 %

3. Silo-busting

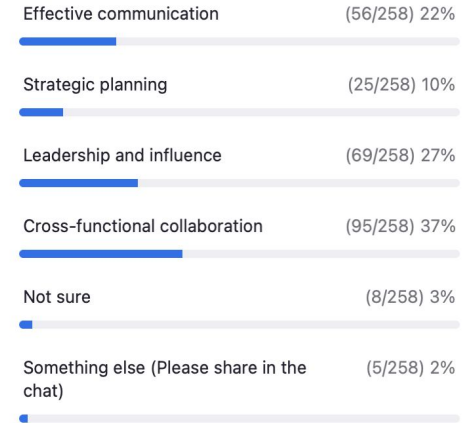

How often do you encounter silos in your work environment? (Single Choice)

247/247 (100%) answered

1. In your opinion, which skill is most crucial for breaking down silos? (Single Choice)

258/258 (100%) answered

4. Sphere of influence

“I want everyone to think, ‘Within my sphere of influence, what can I do to have meaningful participation with communities’ on the basis that sustainability happens in a place. It doesn’t happen in the transport sector, the defense sector, the education sector, or the health sector. Because we don’t live in those sectors - they’re arbitrary distinctions.”

Public servant working in climate and health

5. Multi-solving via “Co-benefit thinking”

6. Increase mainstreaming of citizen engagement

7. Foresight Units

institutionalisation

3 Innovation Case Studies

Mental Health Café (Latrobe City, Australia)

➤ Problem

- 38% more likely to experience mental health challenges.
- Traditional 9am-5pm mental health service hours are insufficient.
- Critical shortage of trained mental health professionals.

Mental Health Café (Latrobe City, Australia)

➤ Solution

- Peer-led model with evening hours, wellbeing supports, and recovery-focused.
- Involve those with lived experience in all decision-making levels.

Tucuvl (Spain)

➤ Problem

- Nearly 1/3 of the population has a chronic disease; this rises to 60% for those over 65.
- Post-pandemic, more chronic illnesses are expected among the younger population, straining healthcare.
- Spain's healthcare shortage reduces trust and negatively impacts patients' quality of life.

Tucuvi (Spain)

➤ Solution

- Tucuvi, an AI voice-powered virtual caregiver, supports continuous home care through its AI bot, Lola.
- Lola interacts with patients via phone calls, assesses their status, and informs healthcare professionals via a dashboard.
- In 2022, Tucuvi received EUR 5.5 million in funding from the European Innovation Council.

Lake Victoria Challenge (Tanzania)

➤ Problem

- Regulatory hurdles, limited airspace access, and lack of unified traffic management hinder drone adoption.
- Africa's poor infrastructure and limited access to critical services heighten the need for innovative solutions.

Lake Victoria Challenge (Tanzania)

➤ Solution

- Delivery of essential goods, such as medical supplies and vaccines, to remote and hard-to-reach areas
- Emergency response
- Assisting farmers with agricultural tasks
- Conducting surveys and inspections of infrastructure
